

# TABLESAFE CLEAR DIVIDERS

**Slide-in assembly** - no tools required

**Slim profile**

**Machine fabricated with rounded corners** - no dangerous sharp edges

**Built with structural integrity**

Edgemold TableSafe clear dividers are stylish barriers required for the new economy. These low-profile, translucent shields are made from a rigid copolyester material (PETG)—instead of standard acrylic—offering outstanding durability and rigidity.

## TableSafe Advantages

### Exceptionally Engineered:

- Rigid and long-lasting
- Built with structural integrity
- Slide-in assembly—no tools required
- 5x stronger than acrylic
- Ships flat via UPS

### Elegant, Stylish Design:

- Remarkably slim profile
- Lightweight, freestanding, easy to move
- Sleek and spotless—no drill marks, hardware, or warping

### Safe for any Application:

- Machine fabricated with rounded corners, no dangerous sharp edges
- Will not shatter if dropped
- Easy to clean for COVID-19 sanitation

## Popular Applications:

- Learning Institutions:
  - Lunchrooms
  - Labs
